400+ Miles of Haunted History...

The Haunted History Trail was started in 2013, for New York State destinations to share their authentic paranormal experiences with visitors wishing to get up-close and personal with the states' spooky history... and haunts. The 400+ mile trail is the first of its kind in the country, now boasting a collection of over 80+ locations across the state which provide visitors with a glimpse into the paranormal world. Each location on the Trail tells an authentic haunted backstory and offers a unique experience to interact with its spirits through overnight stays, ghostly dining, guided tours, paranormal investigations, special events and more. On the Haunted History Trail website, our stops are organized by experience and by vacation region within the state of New York.

In the Fall, the Haunted History Trail carries the largest collection of haunted and Halloween events across the entire state, including haunted hayrides, haunted houses, Halloween festivals and real ghostly events.
